MURDER IS CHARGED

Chiengo Sausago Manufacturer Between Friends of Juban Belpearance of His Wife

Chicago, May 17 Adolph Intergert, a well known asuasge manufacturer, was trusted this afternoon on the charge of baving murdered bis wife.

Lucigert made an assignment about 10 days ago and about the asme time. Mrs. Lucigert disapteared if was at first supposed that she had committed suicide as a result of her bushard station. The place where the murder and destruction of the body of the woman is supposed to have taken place is the factory at Diverse, and Hernitage ascendary at Diverse, and Hernitage ascendars at the tracks of the Northern road. It is stated by persons connected with the case that the doad body was placed in a vat and burned by the use of chemicals. It is said that several bonus are all that have been found and these were taken from the vicinity of the vat. If we should be prevented this week, by fill that have been found in the vat.

BY BOUTELLE BROTHERS!

TURDDAY, MAY IS, 1891.

The President has sent's message to Congress recommending an appropriation of \$50,000 to be immediately available under the direction of the Secretary of State for the relief of suffering Amerleans in Cuba. A part of the sum appropriated, he says, should be left so shows by coplous extracts from the that the Secretary may in his discretion use it to enable American citizens who so desire to return to the United States.

Florida sends a free silver Senstor, n the person of ex-Representative Mallory, their political mothods partake of the of Pensacola. Mr. Mallory is an advo-same arrogance and violence cate of the Chicago platform. There are the only State not fully represented: Mr. Mallery's appearance in the Schate will again unsettle the political balance been able, with the suppositious aid of Mr. Kyle, who is nominally a Populia, to muster exactly half the 'wete' in the deliberative branch. With Mr. Mallory's advent the strength of the elements in opposition will again become preponderant, the Democrats, Silverites and Popullate casting forty five , votes to forty four for the Republicans, even with the uncertain assistance of Mr. Kyle.

The New York Press publishes Information of a plan to found the most gigantle financial institution in the world. It is declared to be a combination of the best' features of the famous Credit Foncier, the building and loar association and the national banking system. Some of the most powerful fluanciers in the United States | are supposed to be behind the undertaking, and it is asserted that it has the indersement of men high in the Federal Covernment. Whether this latter assertion is true or not, the publication of the plans of these who are scaking to establish, this enormous banking and loan institution will cauco an international sensation, for, should the undertaking prove a success, it would begin an entirely now history of finance in the Western hemianhere The plan, in brief, is to form a national loan association to reduce the interes rates, principally on farm mortgages, and to pay the profits of the "credi loans" buck to the tens of thousands of shareholders in the wast concern.

The Railroad Commissioners have aproved the location of the Penobscot Central Street Railway, In a carefully prepared decision they take the ground that under the act passed by the last Legislature the location of a street rail way in the city limits is a question entirely within the jurisdiction of the municipal authorities. This is exactly the contention as we understood it when the subject was under consideration. The claim was justly made that the Legislature should not interfere with municipal control of the streets, and an act to that effect was passed. As the case now stands the road will be constructed through Pickering Square unless the Municipal Officers reconsider their previous action. The Commissioners flad that the read will be a public convenience and as the only question left for them was to approve or disapprove the location if my have approved it, busing their action upon the vote of the Municipa! Officers who are supposed to represent the wishes of the people. We think everyone is agreed that the road is a public convenience, but the question is to get located in a way so as to interfere as little as possible with the ordinary

Referring to the suggestion of a tariff mmission the Boston Advertiser sava: One of the strongest of jections which might be made to this proposition is to be found in the fact that no Congress has the power to govern the acts of its successor. It might easily happen that if a a law enacted by this Congress, the next Congress would entirely ignore the com-mission and would invalidate, all lits acts in the direction of tariff suggestion; The moment a Democratic Congress came into power, if the tariff commis-sion were strongly Republican, the politlcal complexion of that commission might be tentirely changed. If there were any reason to, believe that the appointment of a lariff commission would tend to prevent too frequent agitation of the tariff dispute on political grounds, the argument in favor of such a commission would be stronger. It has never been shown, however, and probably cannot be shown that as long as the lariff question'is made a political issue the appointment of a tariff commission can remedy matters. When the Democratic party diseards the revenue tariff principle as one of its other articles of political faith, the matter will be more casely adjusted.

A Notable Tariff Speech. The Boston Journal 2375; A really BLANK BOOKS:
notable contribution to the recent tariff and STAT debate in Washington was that made by Congressman Joseph H. Walker, of Massachusetts.

Mr. Walker's speech has been printed

in pamphlet form for circulation... It deserves to be very widely; distributed. Mr. Walker chose as his topic "The Pro-tective Tariff for Sixty Years." He has complied a arriking review of the tariff controversy from its beginning in the days of the old nullificationists. He sets out to prove that "Hon: George McDutfle, Hon. John C. Calhoun, Ron! Robert W. Toomba, etc.," are "the progenitors in economics of Hon. Reger Q. Mills, Hon. William L. Wilson, Hon. Henry G. Turner, the Hon. Breekinridges, Hon. Benton McMillin" and other tariff reform" statesmen of the present day. His argument is elaborate and convincing. Mr. Walker's speech is full of perfl. nent citations from the words of the ancient Southern worthles to whom free trade as a political leans in, this country owes its origin." He makes it 'clear' that the chief metive of the Southern cottonplanting onslaught on the protective system, which Mr. Claveland, Mr. Carlists and Mr. Wilson have inherited and sought to carry on; was sectional jealousy. of the asperlor shrift and prosperity if The Southern politicians made no

secret of this, Chairman McDume-Chairman Wilson's predecessor by 60 years in the hadership of the "tariff reorm" propagande declared frankly in a speech which Mr. Walker quotes that be daywood free trade beneaus be believed that /it. would compel the New sormond profits and return the ex-

There was annual to have the protoolive and Courrer the slaveholding South to have the protoolive aystem. The cotion States There was another motive which led wished to "awap" their product for the ckesp manufactured goods of England produced by tollers whose wages they did not regard as "extravagant." In a report of the Committee on Manufac. tures in 1832 the tariff issue of that day was thus vividly summed up by John Quincy Adams, of Massachusetts : ...

Quincy Adams, of Massachusetts:

"The tariff presents two great transcondent, opposite and 'irrecorellable' interests in deadly, hostility, to each other,

"i" The laterest of the South is
idoulized with England, the Toroign rival
and competitor of, the Northern, manufacturer, sgainst whom and for whose
rvin, the i Southern planter; and British
manufacturer are colleagued."

Solititle change in 60 years, but come

-So little change in 60 years has come over this tariff question! Mr. Walker speeches of the Wilsons and the Breckinridges of the present day that they are still full of venom, as were the carlier Bourbone, against the manufacturers and the workmen of New England-that

., Mr. Walker's argument is, worthy of now eighty-nine Senators, Oregon being preservation in permanent form. If the vital facts which he considers were sale quately presented in our New Hogland of power in that body, The Republicate even fewer free traders than they cans for two or three weeks past have do now. It is wholesome for our Amerlean youth to know that before the War free, trade and elavery occur pled the same intimate relation one; to another as in these days do free trade and free coinage-the "twin issues" of Democracy, as Southern newspapers are foud of calling them.

Grocks Suffer Great Losses. Constanticopie, May 17. The governor of Janina telegraphs that a given having Turkish troops, under Osman Pasim, after having fought two days before the manifest superior, forces of Addamph against superior, forces of Greeks, has succeeded in inflicting very great loss a upon the enemy and has disloged the Greeks from the strong posttion which they occupied, Candla Without Water Supply.

Camilla, Island of Crete, May 17.4-The neuricents having out the conduits inlowe the town, Camilla is new without a Water Eight More Guns.

Schuden, May 17.-Eight. Armstrong goes have avrived here for the batteries Opinion of Russian Press.

St. Petersburg, May 17,-The newsropers of this city protect vigorously under the "excessive and unneceptable" conditions which Turkey domands at the price of peace with Greece. They declare that if Turkey insists upon them Carops will be obliged to adminispended-

The Novoe Vremyan says that in event of Purkeyla insistence upon the terms she has presented the Powers will have to mke practical measures to "preserve Greece from the pretensions threatening her national existence." Another Note from the Powers.

Constantinople, May 10, (Delayed in transmission)-The representatives of the powers here held a long meeting yeserday and drew up a note which will be terday and drew up a note which will be presented to the Turkish government as soon as one of the ambassadors receives the necessary instructions from his government. This note does not deal with the pance conditions but merely repeats the request for an armistic and declares the power will not permit Greece to be crushed.

All houghelt in assured in some quarters that the porte, in necessance with east ern usage, thus demanded more in order to charlin less, it is painted into the property of the necessary of the power of the necessary of the power of the necessary of the necessary. The tone of the military allefuls here and classifiers is now emphatically gading abandonly. The sone of the power of the power of the necessary of the point out that if Europe has been madden to make Greece example the bound of Carlo, how will Europe be able to force

number Greece evacuate the Islan F of sete, how will Europe be ablerto force urkey, outlot. Thessaly,

Mrt Langiry Interviewed.
